CAMPUS SHUTTLE PROCUREMENT · DECISION COMPARISON

Alder clears the 200 km minimum at the lowest upfront cost

Among the qualifying options, **Alder costs USD 38k upfront**.

Same criteria for every option	Alder LOWEST UPFRONT · QUALIFIES	Birch	Cedar	Dogwood
Range kilometres	210 Meets · 200 km min.	240 Meets · 200 km min.	190 Below · 200 km min.	220 Meets · 200 km min.
Upfront cost USD thousands	38	44	35	47
Estimated annual energy cost USD thousands	4.2	3.9	4.5	3.8

Decision rule: first meet the minimum range of 200 km, then compare upfront cost. Alder is the lowest upfront-cost qualifying option; this does not make it lowest on annual energy cost.

Energy estimates assume 18,000 km of service per vehicle; maintenance and charging-infrastructure costs are excluded. All figures are estimates from the same procurement worksheet; no uncertainty ranges were provided.
