PROGRAM LEADS · EVIDENCE CHECK

Neither question has an overall or change answer yet.

Barrier: no overall “most common”

North · 40 homeowners surveyed

Installer scheduling: **28** · upfront cost: **17** · unclear eligibility: **9**

Multiple selections allowed; counts overlap (sum exceeds 40).

South · 15 open cases reviewed

9 mentioned waiting for an installer. Other barriers were not recorded; homeowners served denominator is unknown

Turnaround: improvement not established

South recent data: median 8 days

Available for 11 of 15 reviewed cases; 4 had no time recorded.

“Around two weeks last spring” is an unmethoded note: cases, sample size and method are unspecified.

Needed: baseline and recent turnaround measured with the same definition, period, case inclusion and method, with
