CAMPUS SHUTTLE PROCUREMENT · DECISION

Which option meets the minimum range at the lowest upfront cost?

Alder is the lowest-cost qualifying option: **210 km** range for **$38k** upfront.

All options compared on the same criteria · ranges in kilometres; costs in USD thousands

Shuttle	Range (km)	Upfront cost (USD thousands)	Est. annual energy cost (USD thousands)	200 km minimum
Alder	**210**	**38**	**4.2**	**Meets · selected**
Birch	240	44	3.9	Meets
Cedar	190	35	4.5	Below
Dogwood	220	47	3.8	Meets

Alder is selected by upfront cost among options meeting 200 km; it is not the lowest on every criterion.

Energy estimates assume 18,000 km of service per vehicle. Maintenance and charging-infrastructure costs are excluded.

Planning estimates from one procurement worksheet; no uncertainty ranges provided.
