Buy and Partner meet both launch limits

Limits: 6 weeks · €80k initial budget

Criterion	Build	Buy	Partner
Lead time · weeks	12	**4**	**6**
Initial cost · €k	120	**60**	**80**
Control	Full	Limited	Shared

The remaining trade-off is control.

One-time cost and lead-time estimates. Lifetime cost is outside this comparison.

Launch prerequisites

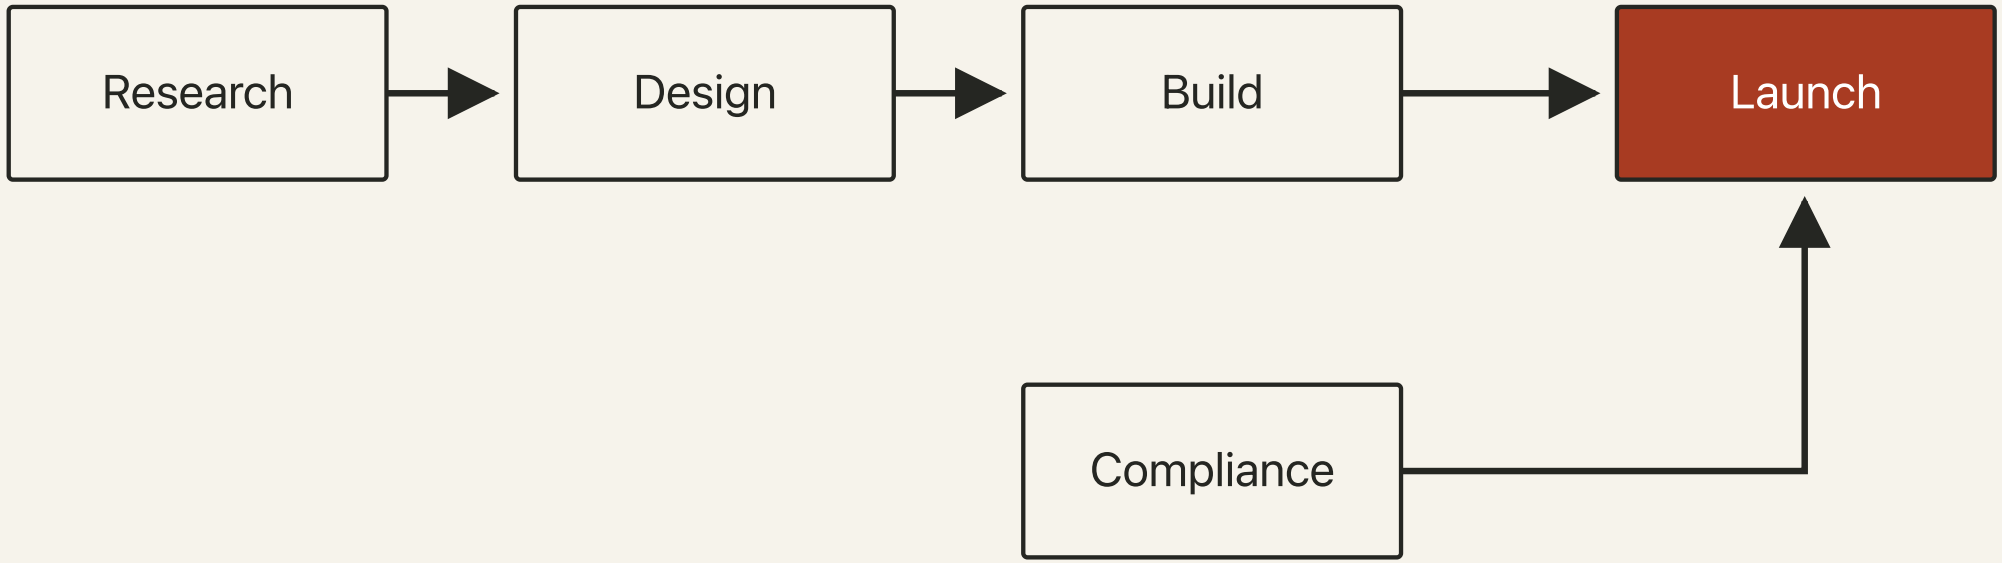

- Research must finish before Design.
- Design must finish before Build.
- Build must finish before Launch.
- Compliance must finish before Launch.

Spacing does not represent duration. Build and Compliance are independent prerequisites for Launch.

Fictional service-launch data · layout examples only

Launch requires both Build and Compliance

Arrows mean “must finish before”

Spacing does not represent duration. Build and Compliance are independent prerequisites for Launch.

An asymmetric view makes Buy look primary

Limits: 6 weeks · €80k initial budget

BUY

4 weeks · €60k

Limited control

Partner

6 weeks · €80k

Shared control

Initial cost and lead-time estimates. Both options meet the stated limits. Giving Buy more area would imply an unjustified priority; area does not encode these figures.
